PROFESSIONAL SUMMARY

Recent B.Tech Computer Science graduate (CGPA 8.1) with hands-on experience in backend and full-stack development using Java, Spring Boot, Python, and REST APIs. Built three end-to-end applications spanning infrastructure monitoring, digital commerce, and resource management. Eager to contribute as a fresher to software engineering, product engineering, or technology roles across domains including fintech, enterprise software, and SaaS.

SKILLS & EXPERTISE

Languages: Java, Python

Frameworks: Spring Boot, Django, React Native, Flutter

Databases: MySQL, MongoDB

Other Skills: REST API Development, WebSocket, Postman, Git, GitHub, Docker, Power BI, WordPress, SQL, API Testing, Problem Solving, Data Structures and Algorithms (DSA)

Areas of Interest: Object-Oriented Programming, Database Management Systems, Operating Systems

EXPERIENCE

Web Development Intern | Forest College and Research Institute **Aug 2024 – Oct 2024**

- Designed web pages for the institute's private agricultural incubator using WordPress, establishing a digital presence for their seed, fertilizer, and farmer knowledge programs.
- Collaborated with stakeholders to gather requirements and refined page designs based on feedback throughout the 2-month engagement.

TECHNICAL PROJECTS

Infrawatch | Spring Boot | Flutter | MongoDB | WebSocket | SSH | JWT Authentication

- Agentless infrastructure monitoring platform with centralised visibility of servers, VMs, and containers via SSH and real-time WebSocket; Spring Boot backend with MongoDB, JWT Authentication, and Flutter dashboard for live system-health metrics.
- Optimised VM terminal access via shell forwarding, eliminating nested SSH and reducing command execution latency by ~42%; supports interactive browser-based terminal with near real-time monitoring.

BoltMart | Spring Boot | Flutter | MongoDB | NFC | REST API | JWT Authentication

- NFC-powered mobile commerce application enabling contactless checkout, reducing average transaction time by ~35% over traditional barcode scanning.
- Built 10+ Spring Boot REST API endpoints with JWT Authentication for catalogue, cart, and order management; Flutter frontend integrated with NFC hardware for sub-second scan-to-cart response.

Eezy Token | Django | MySQL | React Native

- Digital token system replacing manual paper-based food booking and billing, eliminating billing discrepancies for 200+ hostel residents.
- Django REST backend with MySQL handling token issuance and role-based access; React Native app cut manual paperwork processing time by ~50%.

EDUCATION

B.Tech in Computer Science and Business Systems **2022 – 2026**

PSG Institute of Technology and Applied Research, Coimbatore | CGPA: 8.1 / 10

Higher Secondary | Computer Science **2020 – 2022**

Sri Ramakrishna Vidhyalaya Matric. Hr. Sec. School, Tiruppur | HSC: 92.3% | SSLC: 79.6%

ACHIEVEMENTS & LEADERSHIP

- 2nd place — Infrawatch, Project Expo 2024
- 3rd place — Eezy Token, Project Expo 2023
- Placement Coordinator, Batch 2022–2026
- Organised a workshop on Spring Boot at college culturals
- District-level Basketball Player (Captain)
